www.optoin.org/PGC

August 26 to 29, 2024 || Wrocław, Poland

Photonics Global Conference (PGC 2024) will be held in Wrocław, Poland from August 26 to 29, 2024. The aim of this conference is to foster interactions among broad disciplines in the photonics and optical communication family. This is going to be the biggest photonics and communication event in Poland and this can be an excellent platform to meet and share latest research work. The conference will provide a platform for international academics, researchers, practitioners and students working in the photonics areas to discuss new developments, concepts and practices, and to identify synergies in research directions that will lead to broader and deeper applications of photonics.
